

Ambulatory Anesthesia Associates are looking for a Dentist Anesthesiologist who wants to join our well-established, highly successful office-based anesthesia team in Western Pennsylvania, Eastern Ohio, and Northern South Carolina. This is an opportunity to join an established practice with proven methods and successful anesthesiologists. You will enjoy the benefits of immediate work, professional anesthesia set ups, and collaboration with colleagues. Much of our practice is pediatrics, special needs, adult general dentistry, and oral surgery cases. Anesthesia supplies and equipment are provided. This position offers a competitive income and has great potential for the right individual ready to go to work. D.D.S./D.M.D. degree with completion of a certified accredited anesthesia program and ADBA eligible or ADBA certified. Please send CV to wpaoba@gmail.com.
