

Job description

Dental Anesthesiologist - Massachusetts Area Full-Time & Part-Time Positions Available

Are you a Dental Anesthesiologist who is looking for a new opportunity, and has a passion for helping the underserved? If so, we are seeking a Dentist Anesthesiologist just like you!

The Dentist Anesthesiologist is responsible for providing a full range of sedation services to our patients. This individual will administer dental anesthesia to limit the amount of patient discomfort experienced during procedures while adhering to all applicable regulations. Exhibiting compassion & ensuring that every treatment plan is reviewed with each patient and parent will also be a big part of this position. We are looking for individuals who possess a patient-first mentality!

Please note that all applicants must be a graduate of an advanced education program approved by the U.S. Commission on Dental Accreditation and hold a current state dental license.

If you are interested in this position, please send your resume to zandrml@gmail.com
