

Full-Time Dentist Anesthesiologist Position in Illinois and North-West Indiana

Office Anesthesiology & Dental Consultants, PC (OADC) has a full-time dentist anesthesiologist associate position available. This well established Nationally accredited mobile anesthesiology practice offers an opportunity for broad spectrum of patient care and professional growth.

Our patient population includes a large pediatric population as well as adults and individuals with special needs.

We are seeking a highly motivated team player who is interested in growing the practice as well as being integrated in the already existing strong referral base.

Generous compensation is available including a potential for partnership track for the right individual.

Candidates need to be successful graduates of a US accredited dental anesthesiology residency program and board certified or on the track for board certification by the American Dental Board of Anesthesiology. Eligibility for licensure in the States where we provide care is a must.

OADC is an equal opportunity employer
